PREFACE

THIS catalogue contains coins from several sources. It includes a hoard of Anglo-Saxon, Scandinavian and other continental silver deposited about the middle of the eleventh century, which contains a number of rarities (lots 1–146), see page 5. There is an important collection of mediæval Danish coins (lots 147–202), which, with the Danish part of the hoard already mentioned, makes this the most important group of this series to be auctioned in this country since the third part of the R. C. Lockett collection was sold in 1956.

Amongst the small group of Italian Renaissance coins is a striking in copper of a testone of Giovanni Sforza (lot 249). Of special note from a choice group of early English pence are a particularly fine portrait penny of Offa (lot 257), an "Orsnaforda" penny of Alfred, and other pieces from the rare mints of Lydford, Rochester, Ilchester, Malmesbury, Huntingdon, Dorchester and Totnes. Finally, an Achesoun testoon of Mary, Queen of Scots.

A HOARD OF LATE ANGLO-SAXON, SCANDINAVIAN AND CONTINENTAL SILVER PENNIES

This group of coins (lots 1-146), believed to have been found in Poland, contains a number of very rare and interesting items, chief of which are the two Canute helmet type pennies of the mints of Axbridge and Torksey and the unique Canute jewel cross penny of Exeter. Other rarities include a Canute short cross type penny of Cricklade and an Edward the Confessor radiate type penny of Wallingford. Many of the coins are from dies not recorded in Hildebrand or the Copenhagen sylloges. The purely Scandinavian element, although small, represents the first offering of this type of material in London for several years. These latter are mostly barbarous to a greater or lesser degree and have therefore been catalogued under types rather than by reign or mint. Every coin in the hoard is illustrated.

COIN CATALOGUES

On the average we issue twelve or more Coin Catalogues each year, some of which are usually of sales of important collections.

CATALOGUE SUBSCRIPTIONS

PRE-SALE CATALOGUES, frequently illustrated, are normally posted to subscribers about three weeks prior to the date of Sale.

PRICED CATALOGUES (not illustrated) are issued after each Sale with the prices realised printed in the margin opposite each Lot, thus giving at a glance a reliable guide to values. The final test of value must always be auction prices rather than the figures given in books of reference, for changing times and fashions soon render the latter obsolete and misleading.

The Priced Catalogues are posted to subscribers as soon as ready, usually about three weeks after the date of Sale.

Subscription Rates

(*commencing from 1st January*)

Pre-Sale Coin Catalogue		£1.00 per annum
Priced „ „		£2.00 „ „

(Reductions for new subscribers commencing after 1st April.)

All subscriptions expire on 31st December, and renewal reminders are issued. Catalogues of past Sales cannot be supplied.

AIR MAIL

To allow subscribers resident outside Europe time to submit postal bids, Pre-Sale Catalogues will, if desired, be sent by Air Mail. Air Mail postage is not, however, included in the Subscription Rate and must be borne by the subscriber. In such cases an additional £2.00 should be sent as a deposit and we will advise when this is exhausted.
